OUR MISSION STATEMENT

“To provide unparalleled satisfaction to our customers by engendering a culture of excellence and continuous improvement into the fibre of our organisation”

ABECCA VALUES

A strong, reliable organization built up on:

- ✓ **HONESTY** – Telling the truth at all times is always upheld and practiced.
- ✓ **LOYALTY** – Everyone at Abecca are committed to supporting each other in achieving our goals.
- ✓ **OBEDIENCE** – As team players we obey instructions given from those we are accountable to.
- ✓ **INTEGRITY** – Our word is our bond and every commitment is without compromise.
- ✓ **PASSION** – We believe in our products and will not sacrifice on quality.
- ✓ **SERVICE** – that our customers can count on every time!

“Clear and honest communication removes the anxiety of the unknown”

Left **Joseph Beatson**
General Manager

Right **Hamish Beatson**
Managing Director

OUR STORY

Abecca's experience with textile fabrics started way back in 1952, when Mr David Beatson, returned from World War II and started a new life supplying and repairing horse and cow covers using canvas fabric. Fast forward 69+ years and believe it or not, we are world class manufacturers of safe furniture and medical devices using primarily textile fabrics. With the 4th generation actively involved in the business we are family owned through and through.

Our mission has never changed "to provide unparalleled satisfaction to our customers by engendering a

culture of excellence and continuous improvement into the fibre of our organisation." With over 60 years of hands-on manufacturing experience, you can be assured we know how to make top quality products through tried and proven systems.

Partner with us today and get caught up in the excitement of our growing company that is constantly improving and releasing exciting new developments.

Contact Abecca today to find out more about our products and services.

OUR STORY VIDEO

Through many diversifications, we have grown to be a world class leader in the manufacturing of safe furniture pieces.

Scan here

HAS IT EVER OCCURRED TO YOU HOW DANGEROUS FURNITURE CAN BE?

That is exactly why Abecca exists. It all started with requests from numerous special care institutions, who were struggling with their furniture. One customer reported thousands of dollars' worth of damage to a room, where the furniture was used as missiles to destroy the room. Another customer had a wooden bedside table thrown straight through specialist

safety mesh that apparently couldn't be broken! Others reported staff injuries that meant months off work - Does this sound familiar?

Abecca's safe furniture overcomes all of these constraints plus lots more. Why not use specialist furniture that removes all that fear and is proven to create a calming environment?

ABOUT OUR RANGE

With safe furniture in units all over Australasia, and countless years of safe furniture manufacturing, Abecca fully understand how paramount safety is within these testing environments

All furniture pieces are constructed with light weight, fire retardant commercial grade foam, which complies with AS2281-1993 standards. The core composition excludes, wooden, metal or hard components, which propose the greatest risk when tampered with and thrown. These are replaced with multi density foam which doesn't in anyway compromise the integrity of the furniture rather

makes it stronger more durable and best of all a lot safer.

Our furniture is covered with a vinyl fabric that is suitable for heavy commercial and healthcare upholstery. The fabric is waterproof, anti-microbial and anti-bacterial treated, fire retardant and is surfaced with a Protech coating, all manufactured in accordance with ISO9001. The construction of the covers includes minimal seams and is fully sealed which makes the complete item waterproof – the easiest furniture to keep clean and safe from bacteria build up.

SO WHY CALL IT THE EAGLE RANGE?

An eagle is a light weight bird with a huge power to weight ratio representing supreme power and authority. Seeing an eagle symbolises new beginnings, resilience and stamina for those who have been experiencing difficult passages in life.

We felt this perfectly characterised our safe furniture. Light weight and supreme in its application. Our Eagle furniture soars above the competition, assisting with healing and comfort, and most importantly safety. It gives users strength, courage and stamina to overcome and start a new chapter.

KEY BENEFITS FOR ENTIRE RANGE:

The Eagle range is purpose built for high risk and secure units.

- The safest furniture you can buy, safe because its light weight and safe because it is easy to clean
- No hard objects in the construction of the furniture. These are replaced with multi density durable foam which doesn't compromise the integrity of the furniture
- Fire retardant commercial grade foam and fabric (AS 1530.3 + AS/ NZS 40883.1:1996)
- Anti-bacterial and Anti-fungal treated foam and vinyl. Including a coating for ease of cleaning (Protech)
- Fully sealed, including seams
- One piece cover design to prevent bacteria build up
- Tear, slash, and tamper resistant vinyl, with nowhere for clients to hide contraband inside or cause self-harm
- Indoor and outdoor use
- Ergonomic study design to assist with stability
- All furniture pieces have a safe working load of up to 180kgs
- Some items include sensory modulation properties and assist with de-escalation.
- Rocking motion proven to provide therapy, improve balance, blood circulation, reduce muscle pain and provide relief from anxiety and depression with frequent use

TECHNICAL SPECIFICATIONS

FABRIC SPECIFICATIONS

Composition	85% PVC 15% Polyester Gauge: 1.0mm

Density	Hardness	Tear Resistance	Tensile	Elongation	Resilience	Compression Set	Indentation Factor
38kg/m3	200N	160N Minimum	90 kPa	110%	50%	8%	2.40%

TESTING STANDARDS

All foams comply with AS2281-1993 / AS2282-1993 Fire Retardant Standard. Furntech – AFRDI Australian / New Zealand Standard AS/NZS 4088.1:1996. BS5852:2006 Ignition Source 5

CARE & CLEANING

Most stains can be cleaned using warm soapy water, followed by clean water rinsing. Moderate scrubbing with a medium bristle brush will help loosen soiling from the embossed surface. Failure to follow cleaning instructions may permanently stain and reduce the life of the vinyl. For further cleaning information, please contact Abecca for a product cleaning guide.

Still unsure? Please contact Abecca with the cleaner you currently use along with a MSDS sheet if available and we will confirm if it will be suitable to use on our fabric.

SYMBOL'S KEY

Safe

Safe – The safest furniture you can buy. There are no hard components in the structure of Abecca's safe furniture and items haven't been weighted to deter mishandling.

Light Weight

Light Weight – Built with a foam only structure and a vinyl cover, all pieces weigh a fraction of the weight of traditional furniture, making it easy to move for cleaning, and safe if it is mishandled.

Waterproof

Waterproof – 100% waterproof fabric + welded seams make a completely waterproof piece of furniture the ultimate in infection control.

Fire Retardant

Fire Retardant – All foam complies with FR standard AS/NZS 4088.1:1996. BS5852:2006. Ignition Source 5 and all fabrics comply with AS 1530.3 AS/NZS 3837 – Fire test certificates available upon request.

Anti-Bacterial

Anti-Bacterial – All fabrics and foams are sanitised to inhibit growth of bacteria, mould and mildew. On top of all that, the vinyl includes a protective top surface allowing easy removal of difficult stains and dirt (Protech).

Washable

Washable – All furniture is created as a one-piece cover with minimal seams. There are no gaps between arms or headrests for bacteria to build up or a place to hide contraband. All seams are welded, by far the easiest furniture to clean.

WARRANTIES AND REPAIRS

2-year Warranty – Even though we know some of the testing environments our furniture goes into, we are so confident in our product we offer a two-year warranty,

Locally Made – Skip the queue; Yes, Abecca manufacture our own furniture, not only are we fully in control of the quality but we can supply fast. Plus we offer the best after sales support because our factory isn't far from you.

Free Returns and Repairs – While there isn't normally a need for this point, accidents do happen, if it's a product fault Abecca will repair or replace it no questions asked. If it's a misuse we will certainly look after you, and get the furniture as good as new at very little cost.

A man and a woman are leaning over a large, green, curved sensory rocking chair on a grassy area. The woman is wearing a light blue floral dress and glasses, and the man is wearing a white shirt, dark trousers, and glasses. They appear to be inspecting the chair. In the background, there is a wooden pergola with vines, a blue bench, and a brick-paved area.

**"THE ABECCA SENSORY ROCKING CHAIR WAS
WELL USED IN THE HIGH CARE AREA OF OUR ICU,
AND CLIENTS CERTAINLY LOOKED RELAXED WHILE
USING IT (SOME WERE EVEN DOZING).
IT WAS STRONG, AND REMAINED UNDAMAGED**

ABOUT OUR SAFE MATTRESS RANGE

THE KAURI BASE & MATTRESS

Our Kauri mattress has been used in testing environments all over Australasia and are undoubtedly one of the most durable mattresses you can buy.

Originally produced in NZ, the name Kauri is inspired by New Zealand's most valuable native hardwood tree. Kauri trees are one of the world's largest and longest living trees. Perfectly representing our Kauri bases and mattresses.

All Kauri products are constructed with specialist medical grade European PVC fabric. Fabrics comply with fire-retardant standard BS7175 (1989) and have a tear resistance rating of 400 Newtons. The carefully created cover includes very few seams which are HF sealed. The foam is completely enclosed and there is no way to get inside and hide contraband or cause self-harm. All foam is fire retardant complying with British Standard: BS 582:2006. The completed anti-ligature mattress is streamline and comfortable.

Kauri products are commonly used in, High Dependency wards, Seclusion Rooms, Correctional facilities and other challenging environments.

**We have mattresses
in stock now for
urgent delivery**

KAURI MATTRESS

Fabric Weight	550 g/m2	ISO 2286/2 1998

Fabric Tear Resistance	400 Newtons	ISO 4674 A2
Foam Grade	36130	AS2281-1993
Foam Flammability	Certificate Number 14122/3	BS 5852:2006

THE TOTARA MATTRESS

The name, Totara is also inspired by a New Zealand native tree. Totara trees, are still long living but are softer than Kauri's. Just like our Totara mattresses, they are still very durable but are a subordinate to Kauri mattresses, for lower risk areas.

Totara mattresses are constructed with a specialist European medical grade Polyurethane fabric, compliant with FR rating: BS7175 (1989). The breathable fabric has a tear rating of 60 Newtons. Totara mattresses include a one-sided water-resistant zip with the slider removed. All closures are reinforced to prevent hidden contraband or self-harm. The fabric is oekotex approved, assisting with pressure relief and skin integrity

Totara mattresses feature a specialist fire retardant foam compliant with BS 5852:2006 and are 4-way turn-able.

Totara mattresses are commonly used in, low stimulus areas, directly into the community and low-risk correctional facilities.

Still not sure what the correct mattress is for you – ORDER your mini mattress samples free of charge today!

**Don't know what the right mattress is for you?
Refer to pages 26-27.**

KAURI AND TOTARA CLEANING INSTRUCTIONS

1. Most stains can be cleaned using warm soapy water, followed by clean water rinsing.
2. For a sanitising process wipe mattress with warm water and mild detergent/soap on a sponge or soft cloth.
3. To sterilise mattress, dilute 1 part Sodium Hypochlorite with 100 parts water, apply to mattress with sponge or soft cloth. Wipe off then rinse completely with clear water and dry thoroughly.

NB: Failure to follow these instructions may void the warranty.
