ARE YOU SURE YOUR FURNITURE IS SAFE?

In high-risk environments like mental health facilities and correctional institutions, furniture safety is crucial. Our latest **Armadillo™** furniture is specifically designed with these settings in mind, prioritising both durability and security. Engineered to withstand challenging conditions, our pieces feature soft, impact-absorbing surfaces and rounded edges to minimize the risk of injury.

Our latest seamless design eliminates gaps, joints and weak points, making it easier to clean and maintain, while preventing any potential harm. We use materials that prevent misuse while ensuring comfort and stability. Our products meet rigorous safety standards, giving you peace of mind that your furniture isn't just functional but safe for everyone in your facility.

ABECCA VALUES

A strong, reliable organisation built upon:

INNOVATION

We challenge the status quo everytime

LOYALTY

We trust and support each other in achieving our goals

PASSION

We believe in our products and will not sacrifice on quality

CARE

We genuinely care for our customers, suppliers and staff alike

INTEGRITY

We stand by our word and every commitment

OUR STORY:

Abecca's experience with textiles first started in 1952, when Mr David Beatson, returned from World War II and started a new life supplying and repairing cow covers using canvas fabric.

Fast forward 70+ years and the same Beatson family now proudly hold the title of the World's Safest Furniture manufacturers. With the 4th generation actively involved, we are family owned through and through.

Designers, Innovators and Manufacturers of the World's Safest Furniture best describes Abecca in a few words. Our client first philosophy and manufacturing capability means the finest detail on every safe furniture solution is because of feedback from clients like you. Being the manufacturer gives us and you such an advantage where even a minor change to a product is absolutely no issue to Abecca.

Hamish Beatson

Joseph Beatson

FOUNDERS

TIMELINE

1952

David Beatson (the Abecca founders great grandfather) started working with textile fabrics.

2013

Abecca Healthcare registered as a standalone entity.

2015

Abecca's first Sensory furniture item produced (the sensory rocking chair).

2018

Strong growth in the mental health furniture space resulted in Abecca rebranding and trading as Abecca by Design.

2019

Abecca's Eagle Range was born.

2020

Abecca working closely with youth justice space to product 100% fit for purpose furniture.

2023

Abecca's Hawk range officially launched.

2024

Hawk and Eagle range completely refreshed with new designs and greatly improved durability/

2025

Launch of the Armadillo™ Range. Abecca introduces the groundbreaking, seamless Armadillo™ Range, paired with our trademarked LimberShield™ coating—setting a new standard in safety and design.

ABOUT OUR RANGE:

The Armadillo™ Range is a revolutionary, seamless furniture collection designed for the most demanding environments. Engineered to provide a perfect balance of safety, durability, and comfort, it features our exclusive, trademarked LimberShield™ coating, offering enhanced protection against wear, misuse, and easy maintenance. Despite its robust construction, the Armadillo™ Range remains soft, comfortable, and inviting, making it ideal for high-risk settings where comfort is key.

Built to be fire retardant and waterproof, the Armadillo™ Range ensures peace of mind in any environment. It's incredibly strong and hygienic, designed to withstand frequent use while minimizing the risk of infection or contamination. The range is fully customisable to suit your specific needs, all while maintaining a modern, homely aesthetic that moves away from the institutional look.

Fit for purpose and engineered with the end user in mind, the Armadillo™ Range is the perfect solution for mental health, correctional, and other high-risk settings where safety, durability, and comfort are paramount.

SO WHY CALL IT THE ARMADILLO RANGE?

We chose the name "Armadillo" to reflect the unique qualities that define this range. Just like the armadillo, our furniture combines a strong, protective outer layer with a soft, caring inner core. The tough, durable exterior represents the strength and resilience of the Armadillo™ Range, while the comfortable, inviting interior mirrors the care and comfort we've built into every piece.

Not only is the Armadillo™ Range highly functional and protective, but its sleek, modern design ensures it looks as good as it performs. The result is a beautiful, secure solution perfect for high-risk environments where both appearance and performance matter.

OUR COMPLETE PROCESS

01. CONCEPT & CAD DESIGN

We begin by crafting detailed CAD designs, ensuring each piece is precisely tailored to fit your requirements, whether standard or custom.

02. CNC FOAM CUTTING & FABRICATION

Using advanced CNC and robotic machinery, we cut and fabricate foam in varying densities to provide optimal comfort and support and safety.

03. COATING WITH OUR LIMBERSHIELD™ TECHNOLOGY

Finally, each piece is coated with our LimberShield™ technology, enhancing durability and providing long-lasting protection.

And because of our state-of-the-art machinery we can do it all with very short lead times and minimal cost.

WHY YOU'LL LOVE ARMADILLO™ FURNITURE

NO HARD OBJECTS		FIRE RETARDANT FURNITURE		ANTI-BACTERIAL & ANTI-FUNGAL		
High-durability foam construction replaces hard materials without compromising integrity.		Commercial-grade furniture meets BS 5852:2006 safety standards.		Treated foam and Limbershield™ to prevent bacteria and fungal build-up.		
ONE-PIECE COATED DESIGN		ERGONOMIC & STURDY		SENSORY MODULATION		
Seamless coated finish to prevent bacteria accumulation.		Designed for stability and support, with a safe working load of up to 200kg .		Some items help with de-escalation and sensory regulation .		

ARMADILLO™ FURNITURE SYMBOLS

SEAMLESS DESIGN

No gaps or joints for easy cleaning and durability.

LIMBERSHIELD™ COATING

Enhanced durability and resistance against wear, misuse, and damage.

ANTI-LIGATURE & DURABLE

Tough, resilient & safe design for demanding environments.

SOFT, COMFORTABLE & WATERPROOF

Soft, inviting furniture with anti-bacterial protection for a hygienic experience.

FIRE RETARDANT

Fire-retardant to BS 5852: 2006 & BS7177: 2008

CUSTOMISABLE DESIGN & NO ASSEMBLY REQUIRED

Fully customisable in colour, size, and configuration, with no assembly required for ease of use.

RECYCLABLE

Recyclable materials, ensuring sustainability and security in every piece.

AVAILABLE WITH ADDED WEIGHT TO DETER MISHANDLING

Available with added weight to prevent misuse or mishandling in high-risk environments.

WARRANTIES & SERVICE

7-YEAR WARRANTY & FREE REPAIRS

We're so confident in the durability of our furniture that we offer a 7-year structural guarantee and a 3-year outer covering warranty.

Giving you peace of mind that your investment is completely protected.

Accidents happen—if it's a product fault, we'll repair or replace it, no questions asked.

For misuse, we'll restore your furniture to like new condition at minimal cost.

With our free repairs, you're always covered with the service you deserve.

DESIGNED & MADE IN OUR FACTORY

As the manufacturers of our own anti-ligature furniture, we control every step of the process—from design to production.

This ensures top-quality craftsmanship, complete customization, and the ability to quickly address any needs or changes without delays.

When you choose Abecca, you're choosing direct access to the makers of your furniture, giving you peace of mind and the assurance of superior quality.

CUSTOM-MADE SOLUTIONS & 3D RENDERING SERVICES

We specialise in bespoke, high-risk anti-ligature furniture, ensuring safety without compromising design. Our expert team provides custom-made solutions tailored to your specific needs, backed by advanced 3D room rendering services. This allows you to visualise spaces before production, ensuring precision and functionality. With a strong focus on security, durability, and aesthetics, our furniture meets the highest safety standards.

PARTNER WITH US FOR INNOVATIVE, CUSTOM BUILT ANTI-LIGATURE SOLUTIONS DESIGNED TO CREATE SECURE, COMFORTABLE, AND WELL-PLANNED ENVIRONMENTS.

1. Submit Your Idea

Share your vision with us—our team listens carefully to understand your needs and requirements.

2. Concept, Rendering, & Prototyping

We work on your concept, creating 3D room renderings and prototypes to refine the design.

3. Final Sign-Off & Production

Once you're happy with the design, we finalise it for production, ensuring everything meets your specifications.

LimberShield™ Explained

LimberShield™ – Advanced Coating for High-Risk Environments

Abecca's registered LimberShield™ technology is a proprietary coating developed for our anti-ligature foam furniture, engineered to deliver maximum safety, durability, and performance in demanding settings.

The name says it all — “Limber” for flexibility, essential to user safety, and “Shield” for the tough, protective layer that resists impact, tearing, and wear. Applied in-house, LimberShield™ ensures long-term performance while withstanding rigorous cleaning and daily use — ideal for behavioral health, custodial, and other high-security environments.

Benefits

1. Enhanced Safety

Developed specifically for anti-ligature use, the coating helps prevent tampering, self-harm, and misuse — ideal for high-risk, secure environments.

2. Triple-Layer, Highly Flexible Protection

With an elongation range of 450–550%, LimberShield™ maintains its integrity under pressure, offering exceptional flexibility without sacrificing strength — ideal for environments where resilience and softness are both essential.

3. Waterproof & Easy to Clean

Fully sealed and non-porous, LimberShield™ is 100% waterproof, allowing for quick, effective cleaning to meet hygiene and infection control protocols.

4. Fire-Retardant

Complies with BS5852: 2006 and BS7177 Crib 7 fire safety standards, providing critical protection in environments where fire resistance is essential.

5. In-House Application for Total Quality Control

Every coating is applied by Abecca during manufacturing, ensuring a consistent finish, high performance, and complete quality assurance.

6. Trusted in: Mental health units, custodial settings, rehab facilities, and other secure, high-risk environments.

CHAIRS

SINGLE CHAIR | AR1

Ergonomic Comfort—Designed with the perfect blends of foam and contour for extended sitting and optimal comfort. Flexible seating position allowing for dynamic comfort without a fixed frame.

Durable Limbershield™ Coating—Strong, durable, robust and comfortable all packaged into one trademarked coating process.

Anti-Ligature and Seamless—Extremely durable, easy-to-maintain surface without seams. Rounded corners and soft structure ensuring safe comfortable and non-institutional aesthetics.

FOREST SUN

WHAT OUR CUSTOMERS SAY:

We are very pleased with our new furniture that has been delivered to Unit 2. It looks fantastic and makes our unit feel so much brighter and homely!

THERESA | MONASH HEALTH AU

We are so delighted to finally have lovely pieces for our clients and staff to utilise. The beauty is they are not only pleasing on the eye with the vibrant colours, but the practicality of the furniture in this high acuity area is second to none. Simply wonderful.

**DONNA BRYCE | CNM MENTAL HEALTH,
SOUTH CANTERBURY DHB**

I really appreciated the effort that your team put in for this application. The client is very very satisfied with their bed and they have recommended the equipment to lots of other people.

MARIA

Some positive feedback about your products that we have purchased, the team here are really happy with your product and the young people we service have also gave positive feedback in relation to comfort and practicability. Keep up the good work.

JASON COYLE | ORANA YOUTH JUSTICE NSW

CLEANING INSTRUCTIONS

01. DUST REGULARLY

Use a soft, dry microfiber cloth to remove dust and prevent buildup on painted surfaces. Avoid abrasive materials that may scratch the finish.

02. SPOT CLEAN GENTLY

For spills or stains, lightly dab the affected area with a damp cloth and mild soapy water. Do not rub harshly, as this may damage the LimberShield™ system.

03. AVOID HARSH CHEMICALS

Use only diluted bleach or ammonia-based cleaners at a maximum concentration of 10%. Always rinse with clean water and dry thoroughly after cleaning to maintain the integrity of the furniture.

We recommend getting your cleaning product approved by Abecca (customerservice@abeccadesign.com) and always testing it on a small, inconspicuous area, like the base, before full use.

NB: Failure to follow these instructions may void the warranty. To get your cleaning methods and product approved please contact Abecca: customerservice@abeccadesign.com

THANKYOU

Thankyou for your time looking through our guide.
